

Business & Computing Faculty

N5 and H Business Management

What will I be learning?

At National 5 and Higher levels, you will attend Business for four periods per week in S4 or six periods in S5/6. You will study the following units:

- Understanding Business
- Management of Marketing
- Management of People
- Management of Finance
- Management of Operations

How will I be assessed?

You will complete unit assessments throughout the year, working towards a prelim examination in December/January. You may also have the opportunity to complete a second prelim examination around March time.

As part of your overall award, you will also undertake an assignment in February, which involves you creating a report on a business and topic of your choice. This is a great way to demonstrate your understanding of how the course content can be applied to real life business examples. This assignment makes up 25% of your overall award.

What does homework look like?

You will receive homework most weeks while studying Business Management at both N5 and H levels. This homework will normally be based on past paper questions, supporting you to develop the structure of your answers as you work towards your final exam at the end of the year.

It is crucial that you complete the homework as this is the best way to get feedback from your teacher(s) on questions of a similar standard and style that the SQA will ask you in your exam.

Resources are available on your classes teams page which will support you in completing your homework.
