

Dear Parent/carer

Your child has been selected by the Raising Attainment Team at Gleniffer High School to participate in this year's Senior Raising Attainment Programme (S4-S6). This fantastic opportunity will help support your child on their journey to attaining their National 5 or Higher qualifications this year.

The senior mentor team are looking to support pupils who are currently off track to achieve their qualifications based on their recent prelims and tracking reports.

Your child will also be given a staff mentor who will meet with them on a weekly basis to give them targeted support and help them set goals, targets, assist with study planning and address any concerns your child may have with their subjects.

I would ask that you look at signing your child up for a free online study programme through www.e-sgoil.com This has various online study sessions on offer throughout the week for different Nat 5 and Higher subjects. The QR code below will allow access to register for this opportunity.

The image displays four subject timetables for Monday, Tuesday, Wednesday, and Thursday. Each timetable lists subjects and levels (e.g., Higher, Advanced Higher) for different times of the day. Below the timetables is a QR code and the website URL www.e-sgoil.com. A logo for 'STUDY SUPPORT' is also present.

Gleniffer High also has a supported study that your child can access for various subjects after the school day. The timetable for this has been posted on our school Instagram, facebook and website.

I hope you and your child will fully engage in this fantastic opportunity and The Raising Attainment Team are very much looking forward to making this a worthwhile experience.

Any questions please don't hesitate to contact.

Kind Regards

Debbie Martin
